## Our program

Our program ranges in age from newborn to preteen. We begin by introducing sounds, movement and socialization to young children. We move on to introducing new skills to foster independence and ease the child into separation from their grownup as we reach 2-3 years old. From there we introduce more advanced gymnastics skills while utilizing the foundations we have previously built, on apparatus such as the swing bar, balance beam, trampoline and floor exercise. All skills at all age levels are taught progressively with a focus on precision and creating a feeling of success.
